

M799™

NEW Mixed Service Drive Radial
Solid Grip, Solid Service

Extra-solid traction ■ Extra-deep tread ■ Extra-durable everywhere

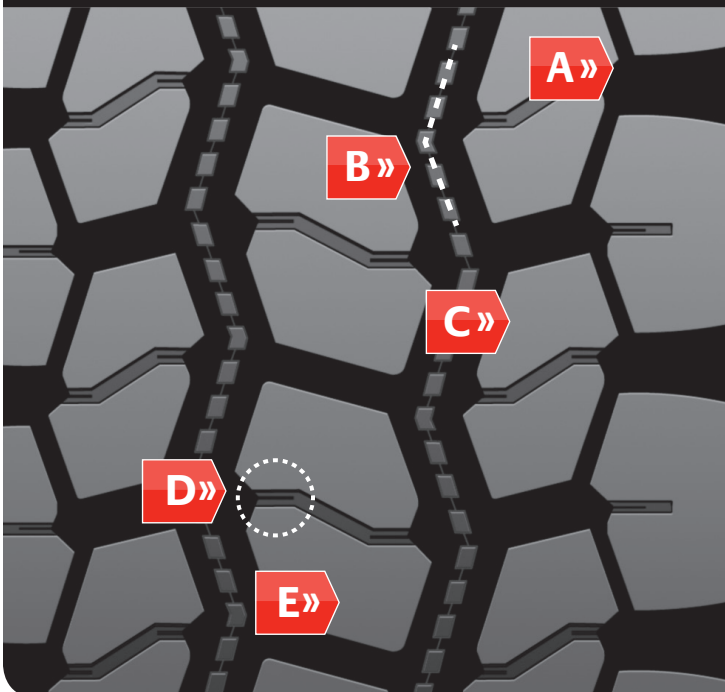

Precisely the right tire.

The “extra” you need for multi-surface use!

The M799 radial is another of Bridgestone’s innovative solutions for fleets who need a tough, long-wearing tire that can stand up to occasional use on punishing gravel roads and construction jobsites. The M799 mixed service drive radial is built to give dump trucks and other vehicles excellent traction, long life and legendary Bridgestone retreadability.

M799 Mixed Service Benefits

A Aggressive, open shoulder
.....
Promotes exceptional soft-surface traction.

B Casing-saving stone rejector platforms
.....
Help prevent stones from being trapped, then drilling into belts – for enhanced retreadability.

C Tough tread compounds
.....
Provide superior wear and abrasion resistance for ultra-long tread life.

D Block sipes
.....
Improve traction by slicing through water for a solid grip on wet roads.

E Aggressive blocks with multiple edges
.....
Bite into soft surfaces for excellent traction throughout original tread life.

M799 Mixed Service Benefits

Optimized groove shapes

Discourage stones and jobsite debris from becoming trapped in tread grooves, enhancing durability and retreadability.

Proven cap/base tread

Long-wearing cap compound is engineered for mixed service, while the base compound shields the casing from damaging heat, enhancing retreadability.

Extra-deep tread

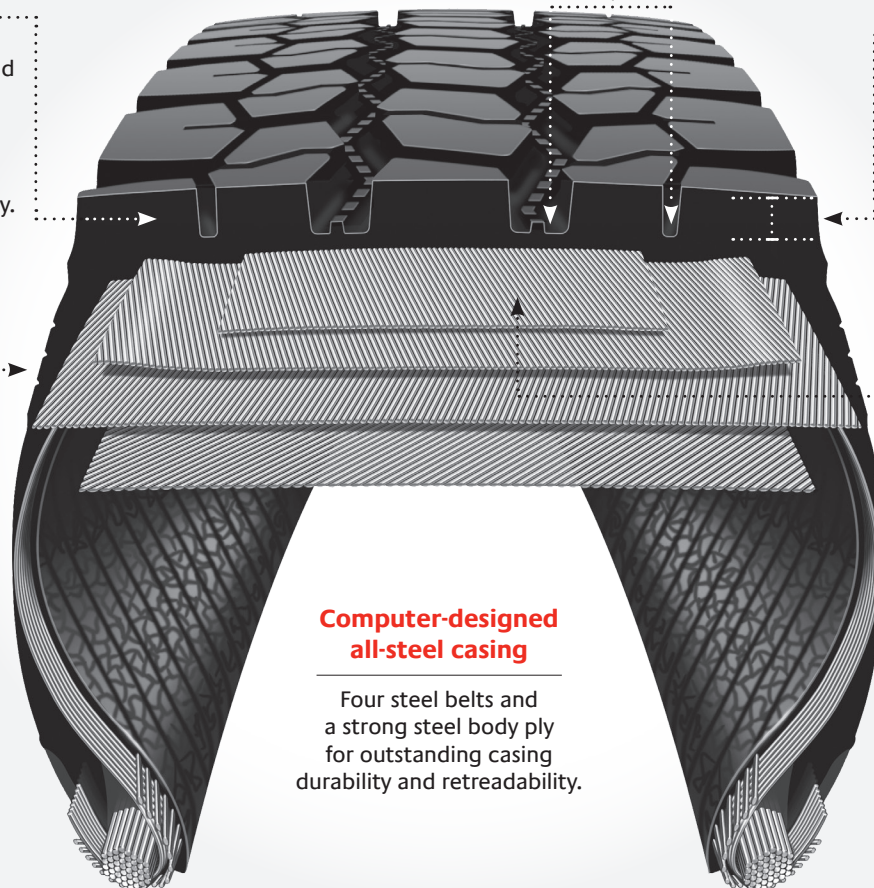

For long original life and low cost per mile.

Tough sidewall protection

Thick ribs on both sidewalls fight curbing, cuts and abrasions on jobsites to protect the casing from damage.

Tough top belt

Fights flats by adding protection against penetrating road hazards.

Computer-designed all-steel casing

Four steel belts and a strong steel body ply for outstanding casing durability and retreadability.

Warranty and additional technical information is available at BridgestoneTrucktires.com, your dealer or truckstop.

Fact: Bridgestone casings are #1 when it comes to retreadability. It's true: Data from over 2 million casings prove that Bridgestone tires have the highest percentage of retreadability thanks to superior casing engineering. Higher than Michelin or Goodyear. Confirming what fleet managers have always known: A Bridgestone tire investment is a smarter tire investment. Get the facts at retreadinstead.com.

Prove it to yourself. Run the only test that really matters: Try the M799 on your trucks, on your routes, with your drivers and your loads – in short, in your real world. See for yourself how the M799 offers superior traction, life and durability. Call your dealer today!
