

You could be using the wrong disconnect switch

If a disconnect switch has a UL label, it should work – right? Not always. Learn when a disconnect switch isn't a disconnect switch before your switch is tagged.

If your design uses a disconnect switch, this webinar can help you:

- Learn the primary features of newer styles of disconnect switches
- Understand how codes and standards influence disconnect switches
- Identify the disconnect switches suitable for your application

Presented by Tom Fowler, Staff Product Specialist and Business Development at Schneider Electric.

Date: Thursday, July 28

Time: 2:00 p.m. EDT/1:00 p.m. CDT
